THIS IS YOUR PENSION

Why should YOU care?

- Members of the Illinois General Assembly are going to try to “reform” pensions again this fall. This means cutting your retirement benefits, increasing your contribution toward your retirement, and possibly changing the Cost of Living Adjustment for current and future benefits.
- The next attempt at pension reform is imminent.

What do YOU need to know?

- TRS, SURS, and IMRF are Defined Benefit Plans – Protect them.
- Defined Benefit plan – your retirement benefit is defined for LIFE (predictability)
- Defined Contribution plan – (similar to a 401(k) plan) – your retirement benefit is determined by your ability to invest in tumultuous markets! Imagine retiring on a 401(k) in 2009 without social security benefits, as teachers receive none.

I'm urging you to vote against any pension bill that has not been negotiated with the labor unions. I also urge you to oppose any bill that does not include guaranteed funding.
